OF 142 OLD WATERMARKS

THE INGEBORG M. HARTMANN COLLECTION
OF 142 OLD WATERMARKS

15TH - 19TH CENTURY

MMXIX

Rockingstone

Wageningen Holland

INTRODUCTION

This collection of watermarks comes from the renowned German bookbinder Ingeborg M. Hartmann. She worked as a bookbinder in Hamburg from 1972-2013. She published some books on bookbinding and decorative papers and won several international awards with her magnificent bindings.

The history and techniques of paper making was another passion and she collected many specimens. I was very lucky to acquire her personal collection of watermarks through an auction in Germany.

Most of the watermarks are from the German speaking countries and they cover the period from the 15th to the 19th century.

Pictures were made of all the watermarks showing a ruler in millimeters and all the sheets were measured for the description. The stocknumber in the description corresponds to the pictures on the DVD that is included.

Enjoy!
